EXPERIENCE

Eli Lilly & Company, Indianapolis, IN   May 2024 – Present
SAP Business Process Analyst Intern
- Achieved first place in the Lilly junior case study on pharmaceutical asset acquisition, demonstrating exceptional strategic analysis and presentation skills
- Engineered Automate Studio scripts for a global project, facilitating the rapid creation of 20,000 new customer organizations in the SAP production environment
- Designed and developed two distinct Power Apps to integrate with the SAP business support request SharePoint site, enabling efficient process tracking for internal requests
- Leveraged Microsoft Power Automate to design and automate intricate workflows for SAP data requests, resulting in faster processing time and improved accuracy

Uline, Pleasant Prairie, WI   May 2023 – August 2023
IT Systems Technician Intern
- Managed a Windows Active Directory database containing employee information and security access which allowed for seamless transition during employee turnover and promotions
- Completed administrative tasks in Azure Active Directory and provided comprehensive technical support for Microsoft 365 suite programs like Outlook, Teams, and OneDrive
- Collaborated on IT asset configuration for a 1,000,000 square foot distribution center, ensuring the build and blueprint process stayed on schedule
- Maintained IT audit reports for the company's three different 800+ employee headquarter buildings, achieving complete asset accountability and accurate tracking

WG Sound, Bloomington, IN   May 2020 – August 2023
Live Sound Technician
- Successfully orchestrated and executed more than 30 live music events, drawing crowds of over 500 attendees at each event
- Utilized Behringer computer software to deliver exceptional sound mixing solutions to prevent clipped or distorted audio signals at live events
- Identified and corrected weaknesses in audio quality from the use of multiple different amplifiers, leading to a 12% increase in attendees over the following 2 months

TECHNICAL
- Tools/Environments: SAP S/4HANA, Microsoft Power Apps, Microsoft Power Automate, Tableau
- Programming (basic knowledge): SQL, HTML/CSS, Python, C#
